# **ABOUT US**

*Mr. Arvindkumar Kakadiya (Pintu Patel), the founder and Managing Director of Bombay Super Hybrid Seeds Limited, a visionary and inspirational person, has initially started business from local market from the age of around 25 years as he was observing farming of various crops at home in his childhood and has developed keen interest in agriculture and therefore he has started cultivation since his childhood only. With the goal to increase yield and earning of farmers, He then incorporated Bombay Super Hybrid Seeds Limited (“The Company”) and started innovating new techniques for the welfare of farmers. Subsequently, the Security of the Company got listed on the Main Board of National Stock Exchange of India Limited.*

*The Company is Gujarat's leading government approved license holding company for seeds processing unit in seeds-agriculture industry and the company is also recognised by the Department of Scientific and Industrial Research Technology (DSIR), New Delhi, for its In-house R&D unit. It is one of the Largest seeds processor unit in India, processing area space of 5 lakh Sq. Feet, which includes fully equipped processing Unit and along with it, Company possesses a separate huge cold storage bearing capacity of storage of 10,000 MT. Here now there is no door of comparison.*

*With a decade of operation under its belt, the Company has developed and fostered excellent business relations the seeds-agriculture sector and I known for the value of its products if field crop seeds, Groundnut seeds, and different varieties of Vegetable seeds.*

A wide-angle photograph of a wheat field at sunset. The foreground is filled with ripe, golden wheat stalks. In the middle ground, the field stretches across rolling hills. The sky is a vibrant mix of orange, yellow, and blue, with wispy clouds. The overall scene is peaceful and scenic.

of seeds

# ACHIEVEMENTS

INDIA 500 BEST MSME COMPANY

BHARAT UDHYOG RATNA AWARD

SAURASHTRA RATNA AWARD

GUJARAT'S FIRST NSE LISTED SEEDS COMPANY

AN ISO 9001:2015 CERTIFIED COMPANY

## OUR VISION

*"To become pioneer and one of the most trusted seeds processing unit in the Country through revolutionizing best techniques in Research & Development and determined to focus on sourcing the Best Quality Products, in order to deliver total quality and satisfaction to its ever-widening National reach."*

Dear Customer,

We are pleased to introduce you with our latest brochure which is based on our sustained hard work over past two decades. It includes our outstanding varieties that are market specific. catering the needs of varied, seasons and cropping patterns. we are sure that brochure will help you in choosing the variety of crop according to your requirements. So we hope you, enjoy your growth ahead with Bombay Super Hybrid Seeds Limited.

# OUR MARKET REACH

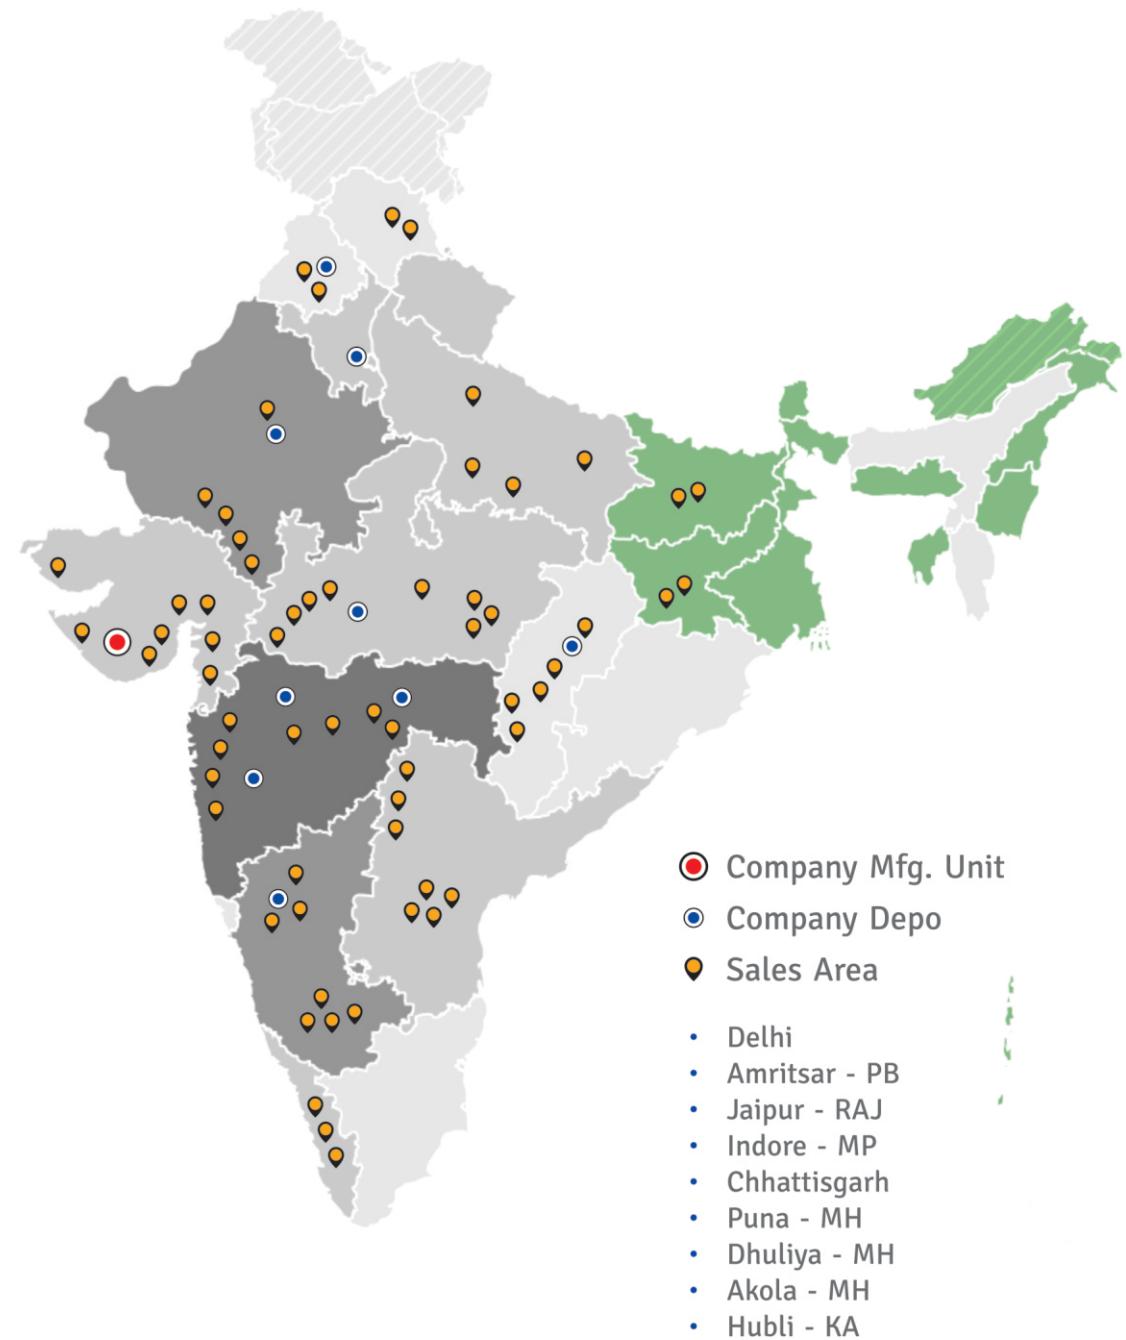

Bombay Super Hybrid Seeds Limited has been very successful in expanding its product portfolio, comprising of best chosen products for each region of the Country according to the climate of the respective regions. Products are sourced from within India as well as the nations that are known for quality and service of their products.

Bombay Super Hybrid Seeds Limited has extended its customer portfolio PAN India and in many Foreign Countries across the World. The Company's Clientele Portfolio is extended in the states such as Gujarat, Rajasthan, Maharashtra, Madhya Pradesh, Uttar Pradesh, Chhattisgarh, Punjab, Delhi, Andhra Pradesh, Bihar, West Bengal, Himachal Pradesh, Tamilnadu, Karnataka and Kerala and also have expanded its portfolio in Italy, Philippines, U.K, Africa, Kenya, Netherlands, China, Thailand, Pakistan etc.

## THE WAY FORWARD

Our Company's endeavour is to increase its presence in the value-added seeds-agriculture product and to expand its operations across India with the eventual aim to become India's leading seed processing unit of groundnut seeds, Field crop seeds and different varieties of vegetable seeds.

Following the pathway of aggressive growth, we have grown up from a single product – single state company in 1983 to a nationally integrated oracle with the turnover target of Rs. 1000 Crores in the forthcoming years.
